L2S Final Assessment Brief

Your Final L2S assessment will be in two parts:

Part 1: Presentation

Please prepare a short presentation on the following question:

What is one of the key concerns with Generative AI <u>beyond higher education</u>?

Choose **ONE** concern introduced and discussed in **the source pack** and prepare a 3-minute presentation answering the above question. Your presentation should include:

1. What the key concern is – make sure you explain this best you can
2. What the implications of this concern are – causes, effects etc…

Your presentation should be no more than 3 minutes. You will be stopped at 3 minutes. You can use a timer.

Do not prepare slides for this presentation. No visual aids are permitted. You are allowed to use notes.

In your presentation, you are expected to:

- Answer the question
- Link your ideas
- Support your ideas with ideas from **BOTH** the mini lecture and discussion (this contributes to your listening score)
- You **must** reference each as '*the lecture'* and '*the discussion'*, e.g. '*According to the lecture…'*

When others are presenting, you are strongly advised to make notes. You will then refer to these in the seminar discussion.

Part 1 contributes to both your speaking and listening score.

Part 2: Seminar discussion

Immediately after your presentations, you will discuss two questions based on the topic of your presentations and the source pack. Note: Monday and Tuesday seminar questions are different. **DO NOT share any questions with other groups.**

You will discuss each question for 8 – 10 minutes (depending on group size).

During the seminar discussion you are expected to:

- Make notes when needed – this will help you respond to each other
- Refer AND respond to each other's ideas
- Use a range of seminar skills
- Actively engage with discussion
- Refer to presentations **AND** the source pack. This contributes to your listening score.
- You **must** reference the source pack as '*the lecture'* and '*the discussion'*, e.g. '*According to the lecture…'*

Part 2 contributes to both your listening and speaking score.

Please familiarise yourself with the L2S criteria prior to the assessment.
